PROFESSIONAL SUMMARY

Senior Software Developer with 4+ years of experience architecting, building, and shipping production-grade mobile and web applications end to end. Deep expertise across Kotlin (Jetpack Compose), Flutter, Ionic, Angular, and the .NET stack, with a track record of multiple apps published on Google Play and the App Store. Skilled at designing scalable architectures (MVVM, clean layering, REST), real-time systems, and reliable data layers on MSSQL, MySQL, and PostgreSQL, while integrating AI capabilities and automation to drive business value. Comfortable owning features from requirements through release, mentoring peers, and collaborating with designers, PMs, and stakeholders.

EXPERIENCE

Nascode — Beirut

Senior Software Developer | Mar 2023 – Present

- Led design, development, and store publishing of the THD, Piscover, and Yerker Android apps using Kotlin and Jetpack Compose, owning the full delivery lifecycle from architecture to release
- Architected and delivered cross-platform Flutter applications (Nascode App, AiPoker, Linkled) sharing a single maintainable codebase across iOS and Android
- Built the CCCL (Children's Cancer Center of Lebanon) donation platform end to end on .NET, Angular, and SQL, integrating Areeba, Stripe, and Monty with webhook-driven transaction workflows for secure one-time and recurring giving
- Delivered Unipak – The Shop, a full e-commerce platform for a packaging manufacturer, engineering scalable catalog, cart, checkout, and order flows
- Designed and built the YMP voting system with SignalR for secure, real-time vote management under high-concurrency load, handling up to 2M requests and 30,000 user votes on election day
- Engineered a GS1 barcode system in ASP.NET to generate barcodes, invoices, and certificates, replacing a previously manual process
- Built the Mohamad Elhabib Real Estate platform end to end using ASP.NET (.NET), including property business logic, calculators, APIs, and lead integrations
- Built the YallaPlay reservation system, custom dashboard, CMS, and CRM internal tools, and the Swah Design and Vernate Group websites
- Integrated AI capabilities (ChatGPT API) into production applications and designed workflow automations with n8n to streamline core business processes
- Established clean UI component systems and robust integrations across REST APIs, Room DB, and MVVM architecture, raising consistency and maintainability across projects
- Contributed to Angular frontends, partnering with designers and PMs to plan, prioritize, and ship releases on schedule

Gtonics — Beirut

Software Developer | Feb 2022 – Mar 2023

- Developed and published the Ici Beyrouth, This Is Lebanon (Flutter), and This Is Beirut news apps to production app stores
- Built MedVault, a Flutter healthcare platform connecting patients with trusted clinics and giving them secure access to view, track, and manage their lab test results anytime, anywhere
- Built the CarryOn app with Ionic, integrated against PHP backend services
- Worked extensively with MSSQL and MySQL to design and manage reliable data models
- Built responsive UIs and integrated APIs for seamless, high-performance user experiences

SKILLS

Mobile Development: Kotlin, Jetpack Compose, Android SDK, Flutter (Dart), Ionic
Web Development: Angular, TypeScript, ASP.NET, .NET Core, VB.NET, Laravel, PHP, WordPress
Architecture & Design: MVVM, Clean Architecture, REST APIs, Real-Time Systems (SignalR), Scalable System Design
Databases: MSSQL, MySQL, PostgreSQL, SQL
Payment Integration: Areeba, Stripe, Monty, Recurring & One-Time Payments, Webhooks, PCI-Aware Checkout
AI & Automation: ChatGPT API, Claude Code, AI Integration, Workflow Automation (n8n)
Tools & Practices: Git, GitHub Actions, CI/CD Pipelines, Docker, GS1 Barcode Systems, Code Review, QA, Agile Development

EDUCATION & LANGUAGES

Lebanese International University — Beirut | Bachelor's in Computer Science (2021)
Languages: English • Arabic • French

CERTIFICATES

- Workshop on Data Analysis with LLM (EFAI 2025) — USJ University
- Full Stack Bootcamp — Udemy
- JavaScript Specialist Certificate — CodeAcademy
- CCNA2 – Cisco Networking and Switching
